

Barham Parish Council – September 2018 In Touch Report

Barham Parish Council welcomes the recent press release from MSDC which stated:

“The Council has been unable to demonstrate this land supply since April 2017, but now the updated figure has been made possible as a result of a proactive approach to delivery.

The National Planning Policy Framework specifies that, if the Council cannot demonstrate a 5-year Housing Land Supply local planning policy for the supply of housing should not be considered up to date and thus carry less weight.

With the publication of the updated 5-year land supply position planning officers will now be reviewing all current application and pre-application enquiries on which this has a bearing. This includes all applications for which formal planning permission has not yet been issued.”

The Parish Council hopes that this news will have a bearing on the Church Lane and Ely Road developments when they go back to the Planning Committees.
